Statins in Secondary Prevention: Intensity Matters
The following sentence read: “Moreover, a recent retrospective analysis from the VA of 509,766 eligible adults with ASCVD at baseline showed over 1 year a graded association between intensity of statin therapy and mortality (8).”, but should have read “Moreover, a recent retrospective analysis from the VA of 509,766 eligible adults with ASCVD at baseline showed over 1 year a graded association between intensity of statin therapy and mortality (9).”
The following reference (9) has been added and all references have been subsequently renumbered. 9. Rodriguez F, Maron DJ, Knowles JW, Virani SS, Lin S, Heidenreich PA. Association between intensity of statin therapy and mortality in patients with atherosclerotic cardiovascular disease. JAMA Cardiol 2017;2:47–54. The author apologizes for this error.
